How Does ChiroHCG Weight Loss Centers' Formula Work?

ChiroHCG works to boost your metabolism while preventing the body from going into starvation mode when consuming fewer calories than you burn on a daily basis. This causes the body to burn fat for its energy instead of protein (muscle).

Or is it the Carb AND Fat?

As a Carb you will lose weight. As a Fat you will lose weight. As a Carb AND Fat you will lose weight. The ChiroHCG Weight Loss Program is doctor supervised. This means that on each follow up visit you will meet with one of our doctors.

Additionally, unlike other homeopathic HCG Weight Loss Programs, ChiroHCG Weight Loss Centers will not "up sell" you. Our formula contains a proprietary blend of the highest quality natural ingredients of the highest quality natural ingredients. This means that you will get exactly what you need, without having to buy additional products with the hopes that they will help.

The ChiroHCG has been 100% homeopathic compounds, it metabolizes, and detoxifying.
